Ethan Cramer

CSCE 5218

Homework 1
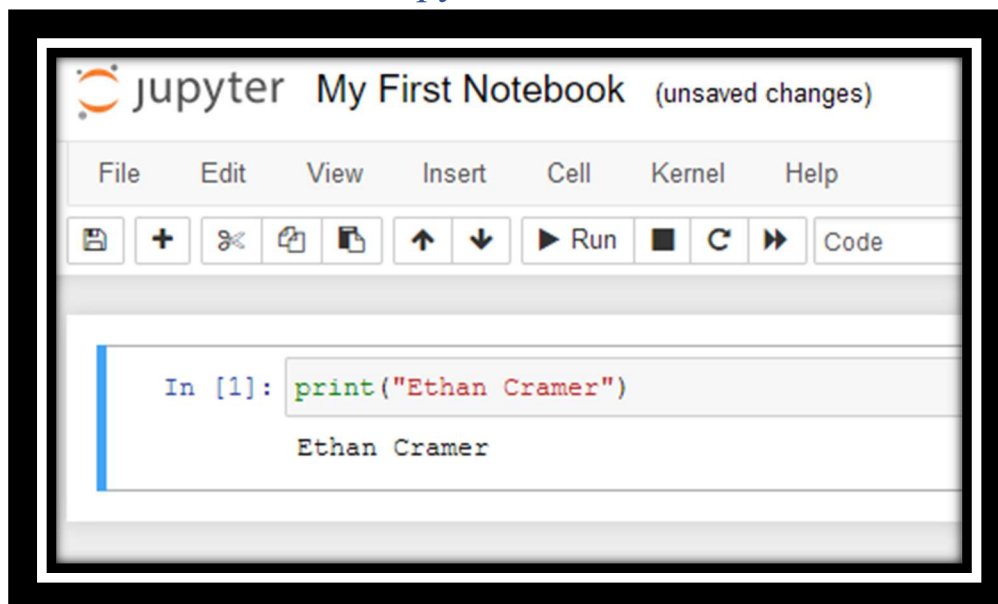

1. Setting Up Python

```
(base) e:\Programming\CSCE5218>python --version
Python 3.9.7
```

Please note: I chose to leave my Python version as 3.9 and downgraded to 3.8 inside of the virtual environment. If this is not ok, let me know and I can downgrade my base version as well.
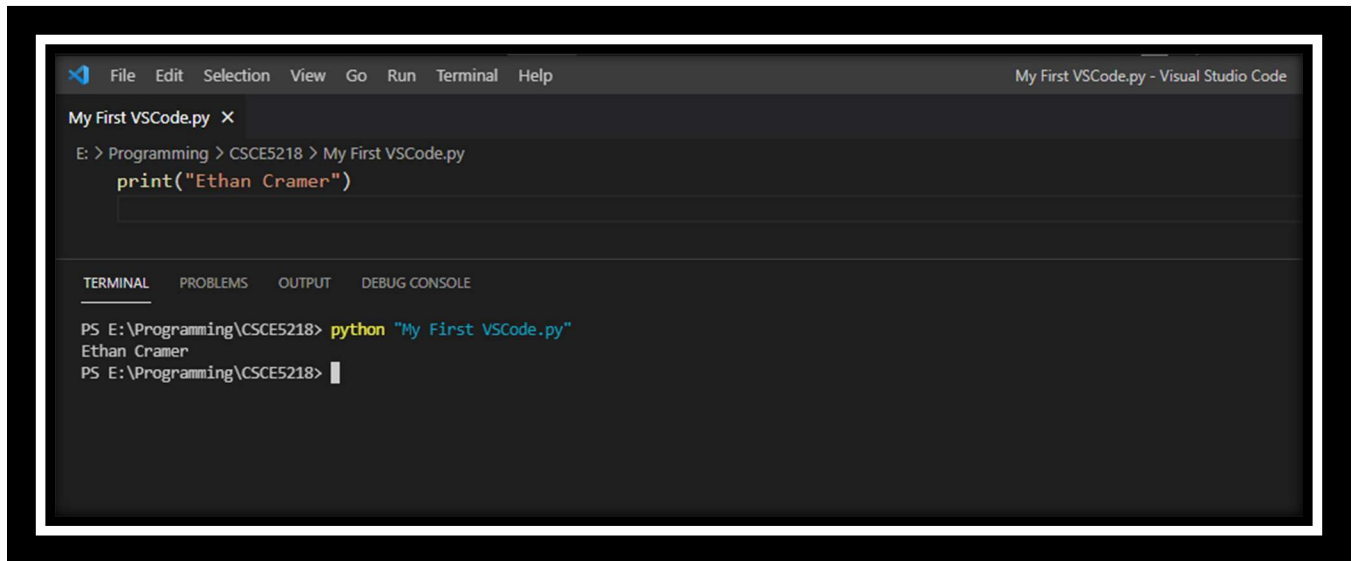

2. Virtual Environment

```
(base) e:\Programming\CSCE5218>conda activate venv

(venv) e:\Programming\CSCE5218>python --version
Python 3.8.12
```
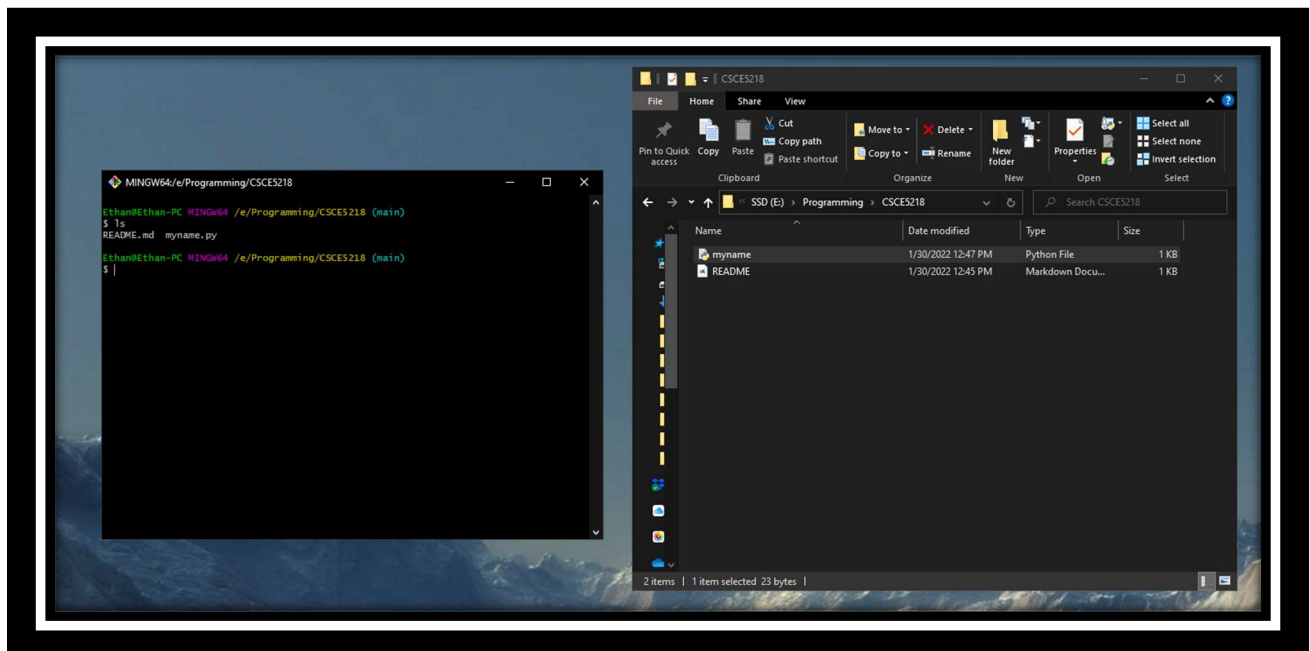

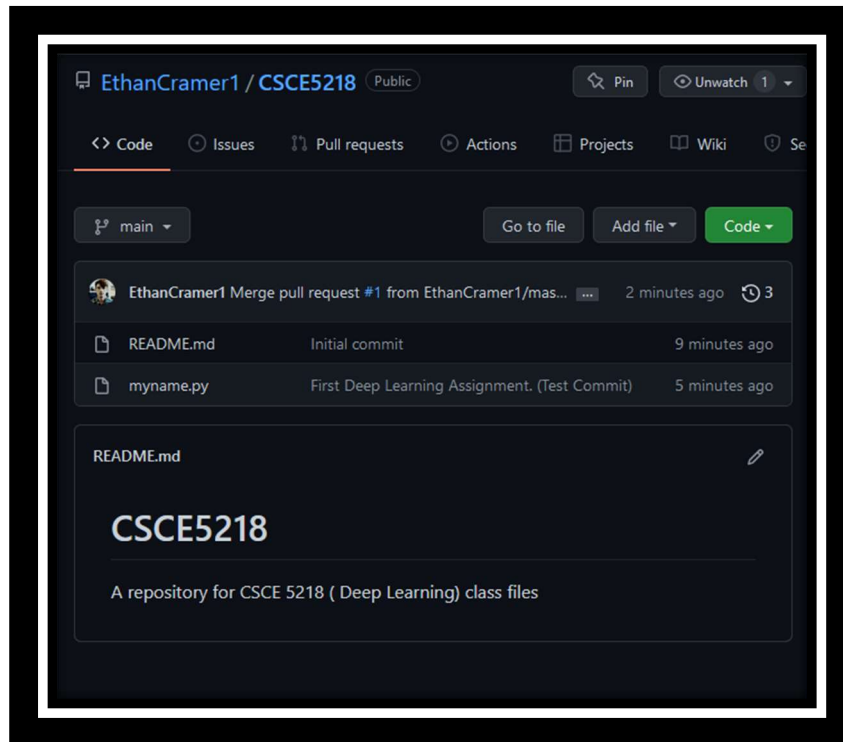

3. Jupyter Notebook

```
jupyter  My First Notebook  (unsaved changes)

File    Edit    View    Insert    Cell    Kernel    Help

In [1]: print("Ethan Cramer")

        Ethan Cramer
```

4. VS Code

5. Setting up GIT
